

# THE HEARTBEAT OF LOVE

## Materials:

- 21 x 21 cm piece of paper
- A helping hand
- Some time to do it

## Instructions:

1. Turn the square to the side so that it looks like a diamond. Then take one of the corners across to the one opposite to it and fold it. Open it up and do the same thing to the other non-folded side so that you have 4 mini triangles on the square piece of paper.
2. Secondly, go back to the diamond position and fold the top corner to the middle line that we had already made.
3. Then take the bottom corner and fold it up towards the flat edge at the top.
4. Next, we are going to fold the two long sides up to the middle line that we created earlier on.
5. To finish off we are going to flip the paper onto the other side. Notice how it doesn't look like a heart yet, so we are going to fold a small bit of paper from both sides back. The same goes with the top as well, fold a small bit down.
6. Last but not least get your Bible and find 1 John 4: 7-21, read it and write one thing you learnt about God's love inside the heart.

*This would be a great idea for a Father's day card or even to decorate your room with by making several different ones. Send us pictures of your beautiful masterpieces and you might be lucky enough to make it to our art gallery.*
